20a. How does the Committee accomplish its purpose?

The Environmental Management Site-Specific Advisory Board (EM SSAB) provides the Assistant Secretary for EM, the appropriate Department of Energy (DOE) Field Managers or Assistant Managers for EM activities, and any other DOE official the Assistant Secretary shall designate with information, advice, and recommendations concerning issues affecting the EM program at various sites. There are eight local community boards created under the EM SSAB Federal Advisory Committee Act Charter at the following locations: Hanford, Idaho, Nevada, Northern New Mexico, Oak Ridge, Paducah, Portsmouth, and Savannah River. The boards provide advice and recommendations concerning the following EM site-specific issues: clean-up standards and environmental restoration; waste management and disposition; stabilization and disposition of non-stockpile nuclear materials; excess facilities; future land use and long-term stewardship; risk assessment and management; and clean-up science and technology activities. The Charter limits the focus of the local boards to EM issues.

20b. How does the Committee balance its membership?

Board membership reflects the full diversity of views in affected communities and regions and is composed primarily of people who are directly affected by site cleanup activities. Members include interested stakeholders from local governments, Indian Tribes, environmental and civic groups, labor organizations, universities, waste management and environmental restoration firms, and other interested parties. Selection and appointment of Board members is accomplished using procedures designed to ensure a diverse board membership and a balance of viewpoints.

20c. How frequent and relevant are the Committee Meetings?

Local board meeting schedules vary by site. Depending on the level of current clean-up activity, DOE site management may convene the full local boards on a monthly basis, or less frequently. Additionally, members representing each local board attend semi-annual EM SSAB Chairs meetings to discuss complex-wide EM issues.

20d. Why can't the advice or information this committee provides be obtained

elsewhere?

The EM SSAB is charged with providing advice and recommendations on such issues as land use, site-specific cleanup criteria and risk assessment, priority setting, management effectiveness, cost vs. benefit analyses, and strategies for site waste management and disposal facilities. Involvement of affected parties early in the decisionmaking process is crucial to making economically feasible, environmentally sound, publicly acceptable decisions that can be implemented.

20e. Why is it necessary to close and/or partially closed committee meetings?

Board meetings are open and announced in advance in the Federal Register.

21. Remarks

Narrative Description

The success of government activities at all levels depends on the support of an informed and participating stakeholder community. The support and understanding of citizens and stakeholders is of particular importance to the mission of cleaning up the nation's former nuclear weapons complex. The EM SSAB is a vital tool in DOE's effort to both inform stakeholders of policies and programs, and to solicit input and advice from affected groups and individuals.

What is the approximate Number of recommendations produced by this committee for the life of the committee?

1,678

Number of Recommendations Comments

There were 33 recommendations passed in 2018 from the eight local boards and the EM SSAB Chairs.

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

69%

% of Recommendations Fully Implemented Comments

Recommendations are evaluated and considered by the EM senior staff in conjunction with the core mission of the EM program. An estimated 69.20% of the recommendations submitted over the life of the committee have been fully implemented.

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?

17%

% of Recommendations Partially Implemented Comments

An attempt is always made to at least partially implement the Board's recommendations. However, it should be noted that some recommendations are either financially or administratively impractical or impossible to fully implement. An estimated 17% of the recommendations submitted over the life of the committee have been partially implemented.

Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?

Yes ☒ No ☐ Not Applicable ☐

Agency Feedback Comments

EM staff attends all Board meetings and reports to the Board on progress. EM staff responds to all written recommendations. EM Field Managers respond to most local Board recommendations as they usually focus on site-specific issues. On occasion EM Headquarters (HQ) Management will respond to Board recommendations when the subject matter focuses on complex-wide issues. EM HQ Management always responds to EM SSAB Chairs' recommendations.
